#### A NOTE ON FORWARD-LOOKING STATEMENTS

This report may contain forward-looking statements that reflect our current expectations or forecasts of future events. Forward-looking statements include statements that are predictive in nature, depend upon or refer to future events or conditions, or include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates", "preliminary", "typical" and other similar expressions. In addition, these statements may relate to future corporate actions, future financial performance of a fund or a security and their future investment strategies and prospects. Forward-looking statements are inherently subject to, among other things, risks, uncertainties and assumptions that could cause actual events, results, performance or prospects to differ materially from those expressed in, or implied by, these forward-looking statements. These risks, uncertainties and assumptions include, without limitation, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, the volatility of global equity and capital markets, business competition, technological change, changes in government regulations, changes in securities laws and regulations, changes in tax laws, unexpected judicial or regulatory proceedings, catastrophic events and the ability of Mackenzie to attract or retain key employees. The foregoing list of important risks, uncertainties and assumptions is not exhaustive. Please consider these and other factors carefully and do not place undue reliance on forward-looking statements.

The forward-looking information contained in this report is current only as of the date of this report. There should not be an expectation that such information will in all circumstances be updated, supplemented or revised whether as a result of new information, changing circumstances, future events or otherwise.

# **Management Discussion of Fund Performance**

## June 7, 2018

This Management Discussion of Fund Performance presents the portfolio management team's view on the significant factors and developments during the period ended March 31, 2018, that have affected the Fund's performance and outlook. If the Fund was established during the period, "period" represents the period from inception to the end of the fiscal period. For information on the Fund's longer-term performance, as applicable, please refer to the *Past Performance* section of the report. In this report, "Mackenzie" refers to Mackenzie Financial Corporation, the manager of the Fund. In addition, net asset value ("NAV") refers to the value of the Fund as calculated for transaction purposes, on which the discussion of Fund performance is based.

# Investment Objective and Strategies

The Fund seeks long-term capital growth by investing primarily in equities of issuers of any size, anywhere in the world.

## Risk

The risks of the Fund remain as discussed in the Fund's Simplified Prospectus.

The Fund is suitable for medium- to long-term investors looking for a global equity fund to hold as part of their portfolio, who can handle the volatility of stock markets and who have a medium tolerance for risk.

## **Results of Operations**

## **Investment Performance**

The performance of the Fund's Series A securities is discussed below. The performance of all series is shown in the *Past Performance* section of the report. Where series returns differ, it is primarily because different levels of fees and expenses were charged to each series, or because securities of a series were not issued and outstanding for the entire reporting period. Please refer to the *Fund Formation and Series Information* section of this report for the varying management and administration fees payable by each series.

During the year, the Fund's Series A securities returned 15.3% (after deducting fees and expenses paid by the series). This compares with the MSCI World (Net) Index return of 9.9%. All index and series returns are calculated on a total return basis in Canadian dollar terms. Investors cannot invest in the index without incurring fees, expenses and commissions, which are not reflected in the index returns.

Global equity markets advanced to record highs earlier in the year in response to accelerating synchronized global growth and low inflation. Market volatility remained low despite growing geopolitical tensions, specifically between the United States and North Korea, and a more aggressive tone from central banks around the world. However, market volatility returned in January as a result of concerns over global trade tensions, rising inflation and the removal of monetary stimulus.

Within the MSCI World (Net) Index, Austria, Norway and Italy were the strongest performers in Canadian dollar terms, while Israel, Australia and New Zealand were the weakest. From a sector perspective, information

technology, consumer discretionary and industrials were the strongest performers, while telecommunication services, consumer staples and energy were the weakest.

The Fund outperformed the index primarily because of stock selection in the consumer discretionary sector. Stock selection and an underweight position in consumer staples also contributed, as did an overweight position in information technology. At a country level, exposure to China and stock selection in the United States contributed to performance.

Stock selection in the health care and materials sectors detracted from performance. At a country level, stock selection in Denmark detracted.

The Fund partially hedged select foreign currency exposure, which detracted from performance, primarily as the euro, Japanese yen and British pound appreciated relative to the Canadian dollar.

Over the year, portfolio activity and market effect resulted in increased exposure to the United Kingdom, South Korea and Australia, while exposure to the United States declined and exposure to Spain and Canada was eliminated. On a sector basis, exposure to materials, energy and consumer discretionary increased, while exposure to industrials, health care and financials declined.

### **Net Assets**

The Fund's NAV increased by 3.2% to \$213.2 million at March 31, 2018, from \$206.5 million at March 31, 2017. This change was composed primarily of \$29.6 million in net income (including dividend and interest income) from investment performance, after deducting fees and expenses, and \$23.0 million in net redemptions.

### **Fees and Expenses**

The management expense ratio ("MER") for Series A of 2.52% during the year ended March 31, 2018, was unchanged from the MER for the year ended March 31, 2017. The MERs (before and after waivers or absorptions, if any) for each series are presented in the *Financial Highlights* section of this report. The MER for Series PWT8 increased due to an increase in fund costs.

## **Recent Developments**

The portfolio management team has a two-pronged approach to stock selection that uses a combination of fundamental analysis and systematic factor analysis. Metrics such as earnings growth, price-earnings ratio, free cash flow variability and industry sales trends are used in quantitative models that rank the broad stock universe according to expected return. As such, the team does not generate market expectations nor move the portfolio according to any macroeconomic forecast.

Effective September 29, 2017, the Fund was renamed Mackenzie Global Equity Fund.

Effective June 1, 2018, Series PWF securities were consolidated into Series F securities.

#### **GLOBAL EQUITY FUND**

## **Related Party Transactions**

The following arrangements result in fees paid by the Fund to Mackenzie or to companies affiliated with the Fund.

### **Management and Administration Services**

For each applicable series, the Fund paid management fees and administration fees to Mackenzie at the annual rates specified under *Fund Formation and Series Information* in this report and as more fully described in the Prospectus. In return for the administration fees, Mackenzie pays all costs and expenses (other than certain specified fund costs) required to operate the Fund that are not otherwise included in management fees. See also *Management Fees*.

### **Other Related Party Transactions**

Investment funds managed by Mackenzie invest in Series R securities of the Fund on a prospectus-exempt basis in accordance with the investment objectives of those funds. At March 31, 2018, funds managed by Mackenzie owned 0.7% of the Fund's NAV. All related party transactions are based on the NAV per security on each transaction day.

The Fund did not rely on an approval, positive recommendation or standing instruction from the Mackenzie Funds' Independent Review Committee with respect to any related party transactions.

At March 31, 2018, Mackenzie had an investment of 13,110 in the Fund (less than 0.1% of the Fund's NAV).

## **Past Performance**

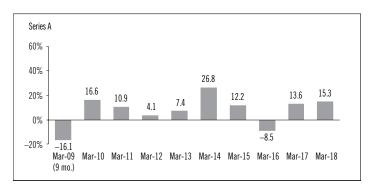

The Fund's past performance information is presented in the following charts and table. It assumes all distributions made by the Fund in the periods presented are reinvested in additional securities of the relevant series of the Fund. The charts and table do not take into account sales, redemption, distribution or optional charges, or income taxes payable by any investor that would have reduced returns. The past performance of the Fund is not necessarily an indication of how it will perform in the future.

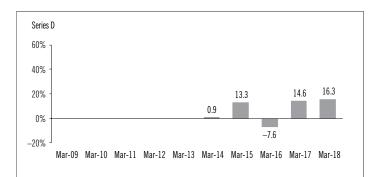

If you hold this Fund outside of a registered plan, income and capital gains distributions paid to you increase your income for tax purposes whether paid to you in cash or reinvested in additional securities of the Fund. The amount of reinvested taxable distributions is added to the adjusted cost base of the securities that you own. This would decrease your capital gain or increase your capital loss when you later redeem from the Fund, thereby ensuring that you are not taxed on this amount again. Please consult your tax adviser regarding your personal tax situation.

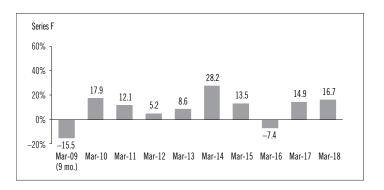

On November 26, 2016, the Fund changed its mandate and switched from a multi-manager approach to a rules-based investment approach. The past performance before this date was achieved under the previous objectives.

## Year-by-Year Returns

The following bar charts present the performance of each series of the Fund for each of the fiscal periods shown. The charts show, in percentage terms, how much an investment made on the first day of each fiscal period, or on the series inception or reinstatement date, as applicable, would have increased or decreased by the last day of the fiscal period presented. Series inception or reinstatement dates can be found under *Fund Formation and Series Information*.

## Annual Compound Returns

The following table compares the historical annual compound total returns for each series of the Fund with the relevant index or indices shown below for each of the periods ended March 31, 2018. Investors cannot invest in an index without incurring fees, expenses and commissions, which are not reflected in these performance figures.

All index returns are calculated in Canadian dollars on a total return basis, meaning that all distributions are reinvested.

The MSCI World (Net) Index is a free float adjusted, market capitalization weighted index that is designed to measure the equity market performance of developed markets. It consists of 23 developed market country indices. Net total returns are after the deduction of withholding tax from the foreign income and dividends of its constituents.

- (1) The percentage return differs for each series because the management fee rate and expenses differ for each series.
- (2) The return since inception for each series will differ when the inception date differs and is only provided when a series has been active for a period of less than 10 years.
- (3) The return of the MSCI World (Net) Index since inception for each applicable series is as follows: Series D 12.1%, Series FB 9.3%, Series J 13.1%, Series PW 13.8%, Series PWF 11.7%, Series PWFB 9.5%, Series PWT6 9.5%, Series PWT8 12.5%, Series PWX 11.9%, Series R 12.0%, Series T6 12.5%.

(1) These calculations are prescribed by securities regulations and are not intended to be a reconciliation between opening and closing net assets per security. This information is derived from the Fund's audited annual financial statements. The net assets per security presented in the financial statements may differ from the net asset value per security calculated for fund pricing purposes. An explanation of these differences can be found in the *Notes to Financial Statements*.

(2) Net assets and distributions are based on the actual number of securities outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of securities outstanding over the fiscal period.

(3) Distributions were paid in cash/reinvested in additional securities of the Fund, or both.

(1) This information is provided as at the end of the fiscal period shown.

- (2) Management expense ratio is based on total expenses (excluding commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of daily average net asset value during the period. If in the period a series was established or reinstated, the management expense ratio is annualized from the date of inception or reinstatement. Mackenzie may waive or absorb operating expenses at its discretion and stop waiving or absorbing such expenses at any time without notice.
- (3) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period.
- (4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a fund's portfolio turnover rate in a period, the greater the trading costs payable by the fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund. The portfolio turnover rate is not provided when the Fund is less than one year old. The value of any trades to realign the Fund's portfolio after a fund merger, if any, is excluded from the portfolio turnover rate.

ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE | For the Year Ended March 31, 2018

## **Management Fees**

The management fee for each applicable series is calculated and accrued daily as a percentage of its NAV. The Fund's management fees were used by Mackenzie to pay for the costs of managing the investment portfolio of the Fund and/or the underlying fund(s), as applicable, including providing investment analysis and recommendations, making investment decisions, making brokerage arrangements for the purchase and sale of the investment portfolio, and providing other services. Mackenzie also used the management fees to fund sales commissions, trailing commissions and any other compensation (collectively "distribution-related payments") to registered dealers and brokers whose clients invest in the Fund.

The following dealers affiliated with Mackenzie may be entitled to distribution-related payments from Mackenzie on the same basis as unrelated registered brokers and dealers: IPC Securities Corporation, Investors Group Securities Inc., IPC Investment Corporation and Investors Group Financial Services Inc.

Mackenzie used approximately 43% of the total management fee revenues received from all Mackenzie funds during the year to fund distribution-related payments to registered dealers and brokers. In comparison, such distribution-related payments for the Fund represented on average 34% of the management fees paid by all applicable series of the Fund during the year. The actual percentage for each series may be higher or lower than the average depending on the level of trailing commissions and sales commissions paid for that series.

Series F securities are offered to investors who are enrolled in a dealer-sponsored fee-for-service or wrap program, who are subject to an asset-based fee rather than commissions on each transaction and who invest at least \$500; they are also available to employees of Mackenzie and its subsidiaries, and directors of Mackenzie.

Series FB securities are offered to retail investors investing a minimum of \$500. Investors are required to negotiate their advisor service fee, which cannot exceed 1.50%, with their financial advisor.

Series I securities are offered to retail investors investing a minimum of \$500 in a qualified group plan with a minimum of \$20,000,000 in assets.

Series O securities are offered only to investors investing a minimum of \$500,000 who have an account with Mackenzie Private Wealth Counsel; certain institutional investors; and certain qualifying employees of Mackenzie and its subsidiaries.

Series PW and Series PWT6 securities are offered through our Private Wealth Solutions to certain high net worth investors who invest a minimum of \$100,000. Investors in Series PWT6 securities also want to receive a monthly cash flow of 6% per year.

Series PWF securities are offered through our Private Wealth Solutions to certain high net worth investors who are enrolled in a dealer-sponsored fee-for-service or wrap program, who are subject to an asset-based fee rather than commissions on each transaction and who invest at least \$100,000. Effective June 1, 2018, Series PWF securities were consolidated into Series F securities.

Series PWFB securities are offered through our Private Wealth Solutions to certain high net worth investors who invest a minimum of \$100,000. Investors are required to negotiate their advisor service fee, which cannot exceed 1.50%, with their financial advisor.

Series PWX securities are offered through our Private Wealth Solutions to certain high net worth investors who invest a minimum of \$100,000. Investors are required to negotiate their advisor service fee, which cannot exceed 1.50%, with their financial advisor.

Series R securities are offered only to other affiliated funds and certain institutional investors in connection with fund-of-fund arrangements.

Series J securities are no longer available for sale.

Series PWT8 and Series T6 securities were created specifically for the purpose of implementing mergers affecting the Fund and are not available for sale.

An investor in the Fund may choose among different purchase options that are available under each series. These purchase options are a sales charge purchase option, a redemption charge purchase option and various low-load purchase options. The charges under the sales charge purchase option are negotiated by investors with their dealers. The charges under the redemption charge and low-load purchase options are paid to Mackenzie if an investor redeems securities of the Fund during specific periods. Not all purchase options are available under each series of the Fund, and the charges for each purchase option may vary among the different series. For further details on these purchase options, please refer to the Fund's Simplified Prospectus and Fund Facts.
