

# **2019 TAX FACTS**

### Mackenzie Tax & Estate Planning

### **Tax Brackets**

The rates below are the combined federal and provincial marginal rates, including all surtaxes. It is assumed that the only credits claimed are the basic personal amount and the Low Income Tax Reduction (LITR) where applicable. Individuals resident in British Columbia, Manitoba, Ontario, New Brunswick, Nova Scotia, Prince Edward Island and Newfoundland & Labrador are subject to an LITR or equivalent resulting in no provincial income tax up to a certain threshold and clawed back for income in excess until the reduction is eliminated, resulting in a higher marginal tax rate for that income bracket. These rates are correct as at January 1, 2019 and do not reflect changes resulting from federal or provincial announcements after that date.

### **Dividend Taxation**

Dividends received by individuals from Canadian corporations are taxed based on a "gross-up" value and a corresponding tax credit. The gross-up and tax credit varies depending on the type of dividend; i.e., whether "eligible" (dividends paid after 2005 from public companies and private companies where the underlying income is subject to the general corporate tax rate) or "non-eligible" (a dividend from a private Canadian corporation where the related underlying income is investment income or income subject to the small business rate).

The following table summarizes the amount of eligible and non-eligible dividends that may be received without incurring tax in 2019, assuming no other income or deductions other than the basic personal exemption and dividend tax credit. Note however that AMT may be triggered in some cases.

Province/Territory	Eligible Dividends	Non-eligible Dividends
